Arab Safe

Promoting Radiation Safety

Promoting Radiation Safety

Presented by : Prof. Dina Hussein Salama (Egypt)

Radiant Goals: Arab Safe's Triad for Elevating Radiation Safety

1. Training Healthcare Professionals: (Straightforward Goal)

- Comprehensive and Accessible Training Programs

2. Adoption of Guidelines and Protocols: (Doable Goal)

- Challenges with Cost of Justification Guidelines
- Highlight Initiatives in Saudi Arabia and Egypt
- Positive Steps in Tunisia and the UAE

3. Advocacy and Awareness Campaign: (Aspirational Goal)

- PAARS (Pan Arab Association of Radiological Societies) as the Driving Force
- Unite Under PAARS for Sustaining Arab Safe's Functions
- A call for Intensified Activities

Recommendations and Conclusion

- **Continuing collaboration and support for ArabSafe initiatives.**
- **Promoting awareness of the importance of radiation safety within the medical community and beyond.**
- **ArabSafe's three-tiered strategy signifies a holistic approach to address the multifaceted challenges in radiation safety.**
- **The collective efforts of healthcare professionals, organizations, and regional initiatives are integral to the success of these goals.**
